

“Supporting Children, Parents and Teachers in Equal Access to Education”

Bayraklı Guidance and Research Center was founded in 2011. It is a public institution. It is located in İzmir city, work 20 colleagues which are administrators, special education teachers, psychological counselors, physiotherapists, teachers and auxiliary officers. The institution works interactively with 65 public schools (kindergarten, primary, secondary and high school) in district. It monitors students and empowers parents and teachers.

MISSION

Our mission is to improve ourselves while conducting special education and psychological counseling studies in the light of scientific developments, to empower children, families and educators and to be a leading institution in our field.

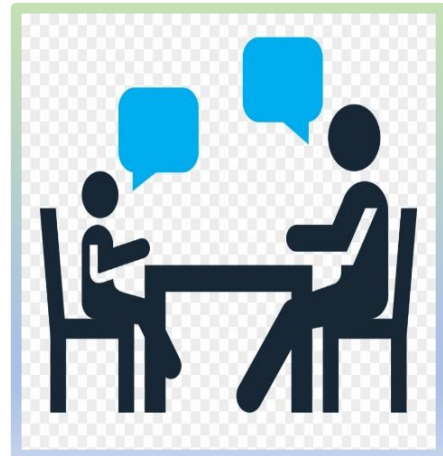

VISION

Our vision is to carry out quality, sustainable and pioneering studies that will contribute to the well-being of society in the light of universal values and scientific studies in line with the general objectives of the Ministry of National Education.

WHAT DO WE DO?

Special Education Department

- Determining the special needs of students and preparing an education plan.
- To prepare a report for students with special needs (Special Learning Disability, Intellectual Disability, Autism Spectrum Disorder, Speech and Language Disability, Physical Disability, Hearing Impairment, Visual Impairment) to receive support education from the rehabilitation center.
- To follow up and support students in special education classes and students in inclusive education.
- Organizing in-service training for teachers to support inclusive education.
- Conducting trainings for parents with children with special needs to empower them.
- To produce national and international projects in the field of special education.

Guidance Department

- Supporting guidance counselors working in guidance services in schools.
- To examine children who have adaptation problems in schools and make the right referrals.
- Conducting in-service training for teachers in schools.
- Supporting high school students in the field of career counseling.
- Conducting trainings for families.
- Providing psychological support and professional support to schools in crisis and intervention situations.
